SUBJECT: LITHUANIA SUPPORTS UNSCR 1267'S CT GOALS

REF: STATE 65371

We delivered reftel points to Irena Skardzuviene, Head of the MFA's United Nations and Council of Europe Division, and Martynas Lukosevecius, Attache in the MFA's Arms Control, Non-proliferation, and Disarmament Division, on May 21. Both said that the GOL supports the goals of UNSCR 1267. Lukosevecius added that the GOL relies on information from the USG, the UN, and the EU to design its own sanctions programs. They both expected that the GOL's relevant officer in New York already plans to be at the May 22 briefing, but said they would inquire and encourage him to attend.
